

**PROGRAMME CHANGES DUE TO COVID -19**

I'm delighted to inform you that 'Super Summer Activities Camps' will take place this year in accordance with the health and safety guidance issued by the HSE and our Government. In order to keep each participant, parent and staff member safe during our camps we have introduced a number of health and safety protocols. As a result of these measures our camps will still be amazing fun and entertainment for your child but will require your cooperation and understanding as we aim to make them a safe and enjoyable experience for each participant.

The following safety protocols are in place to ensure everyone has a safe enjoyable and fun experience at our summer camps.

1. There will be a reduced number of places available at each of our camp venues in order to achieve the best social distancing practices. Therefore, the number of children in each activity group will be reduced as a result.
2. Children will be placed in an activity group on the first morning of camp. Changing to another group will not be permitted. Each activity group will have the same Camp Staff leader with them for the entire week during all camp activities. Groups will not inter-mix with other groups during the week.
3. Registration will take place on the Sunday, the day before the camp is due to start from 11.30 am to 1pm at each venue. Payment must be made in full for each child. The correct fee must be placed in an envelope with the each child's full name and accompanied by a completed application which can be downloaded from our website [www.fitnessbydesign.ie](http://www.fitnessbydesign.ie) Payments will be accepted by cash / cheque or contactless.

## Super Summer Activities Camp 2020

4. We will not be accepting applications on the opening day of camp under any circumstances.
5. We have introduced a drop off system for parents on each morning of camp where our staff will meet your children at a specific location at the camp venue. We would ask parents to remain in your car to queue up to the drop off zone at the venue. You will receive information about this procedure that is specific to your camp venue in advance.
6. Parents/other family members/ child minders will not be permitted to enter our camp facilities at any time during the camp day unless previously agreed with our Summer camp director.
7. This year's activity programme has been adapted in line with social distancing guidelines. Our water battle and inflatable games will not be part of this year's summer camp, but our camp programme will be packed with plenty of new activities.
8. Upon arrival on each morning each child will have their temperature taken using an infra-red temperature monitor and will have hand gel sanitizer applied to their hands. We would ask that in addition to this each child attends camp with their own supply of hand sanitizer for personal usage during the week.
9. Each of our staff members will be trained in the most current hand hygiene procedures and will constantly remind children to follow these procedures. Soap will be readily available at hand washing stations/toilets.
10. Any parent or child displaying symptoms of Covid-19 prior to camp or outside of camp hours should not attend under any circumstances. If a staff member or child on camp is

displaying symptoms, our staff will follow our robust procedure to ensure the safe isolation of the individual until it is possible for them to go home. Masks will be provided on site for any person who is displaying symptoms. Those affected will be advised to phone their GP and follow their GP's medical guidance. will complete an incident report and comply with any HSE contact tracing requests.

11. Enhanced Cleaning Routines: touch 'hot spots' such as door handles and hard surfaces will be cleaned regularly during each camp day. An extra staff member will be on site at each camp to complete regular cleaning/disinfecting of equipment after use.
